GALLERY THEME: TEXTILE EXPRESSIONISM

This exhibition is an invitation to artists to freely express their feelings, both positive and negative, through textiles. Artists are encouraged to push boundaries to fully express themselves and engage with expressive techniques which might include (but which are not required) mark-making, collage, surface design, unique materials and/or experimental and improvisational media.

The exhibition will serve as a cathartic experience for the artists and create an emotive experience for the viewers.

ABOUT THE CURATOR

Teresita Leal was born in Buenos Aires, Argentina, where she currently lives and works. Leal graduated as a biochemist and as a Doctor in Physiology; she became an art quilter 20 years ago. Throughout her art career, she has studied art movements and quilting; she most recently added curatorial studies to her educational pursuits.

Leal is also a teacher, offering classes and workshops across Latin America. Her art pieces have been displayed in quilt festivals, art salons and museums in America and throughout Europe.
